The desire to roam 'foot-loose and fancy-free' have at some time or another possessed most of us. It is one of the most primordial of human instincts- a desire to venture out, to bond with the unfamiliar, a personal search for deeper meaning. It is an instinct that exists within each of us- but is often overpowered by more pressing, existential demands.

At 43 years of age, Manas has been a corporate professional, most of his career. Previously with Mercedes-Benz (General Manager for Communication and Strategy) his recent assignment was with the OTE Group in Oman as their Chief Marketing Officer. His previous assignments (in Communication / Marketing) were with organizations like Times of India, Allianz and Indiacom. His wife Anuradha (aka Anu) holds a Ph.D. in Philosophy and is a Life Coach, a Corporate Trainer and is involved with social causes.

Together, this couple is set to embark upon the most ambitious journey of their lives: a motorbike trip spanning 100 days, 18 countries and 20,000 kilometers across Europe and Asia. Their quest: to bond with strangers, experience worldviews across cultures and share miles of smiles along their route... a quest aptly code-named "Dosti on Wheels".

Their 100-day Odyssey will stretch from Spain till Turkey through France, Germany, Austria, Swiss, Litchenstein, Italy, Czech, Slovakia, Hungary as well as the Balkan states. Enroute, they will explore the national cultures, cuisine, dance, music and attitudes- taking in the experience through the eyes of a local craftsman here, a motoring enthusiast there, a dancer willing to teach them a new step, or a grandmother willing to teach her secret recipe to a new Dost (friend/ami/freund/amigo/arkadas). Live the special moments with them as they meet new friends and experiences. Visit www.dostionwheels.com (<http://www.dostionwheels.com/>) (site under construction currently). Flywheel Family wishes both of them safe and adventurous ride.
